Invited Talks and Lectures 2000 – 2007

- Enumeration of orders and lattices.
Math. Colloquium, Charles University, Prague, Čech Republic, 2000.
- The prime position of primes.
Conference on Classical and Universal Algebra, Computation and Number Theory,
Zielona Gora, Poland, 2000.
- Milestones of Stone duality.
IV. Iboamerican Congress on Topology and Applications, Coimbra, Portugal, 2001.
- Schachteln verbinden und Verbände schachteln.
Studentenkolloquium, Technische Universität Berlin, Germany, 2002.
- Anti-Exchange Systems and Convex Geometries.
Novi Sad Algebraic Conference (NSAC '03), Novi Sad, Serbia and Montenegro, 2003.
- Austausch- und Schälssysteme.
Mathematisches Kolloquium, Universität Bielefeld, Germany, 2003.
- The polarity between approximation and distribution.
Int. Conference on Galois Connections and their Applications, Potsdam, Germany, 2003.
- Minimal bases and algebraic models for topological spaces.
Summer Conference on Topology, Section Topology and Computer Science, Cape Town,
South Africa, 2004.
- Ordnungsmodelle für topologische Räume.
Mathematisches Kolloquium, Universität Hamburg, Germany, 2004.
- History of Galois connections. Third Int. Conference on Formal Concept Analysis,
Lens, France, 2005.
- Prime decomposition and pseudocomplementation.
Conference on General Algebra, Vienna, Austria, 2005.
- Choiceless, pointless, but not useless: dualities for preframes.
Aspects of Contemporary Topology II, Antwerp and Brussels, Belgium, 2005.
- Tensor products for closure spaces.
Conference on General Algebra, Bedlewo, Poland, 2006.
- Distributors and Wallman locales.
Summer School on Ordered Sets and Algebras, Radejow, Čech Republic, 2006.
- G.G.L.L. - Genie - Geheimnis - Logik - Lösung. Leibniz und die Kettenlinie.
Festvortrag zur Preisverleihung im Bundeswettbewerb "Jugend forscht" Mathematik,
Hannover, Germany, 2007.
- Web spaces, wide web spaces and worldwide web spaces.
Aspects of Contemporary Topology III, Antwerp, Belgium, 2007.
